Tuesday, 17th November, 2020.

Director General,
National Salaries and Income Wages Commission.
Central Business District,
Abuja.

Dear Sir,

REQUEST FOR IMMEDIATE DOWNWARD REVIEW OF SENATORS' AND REPRESENTATIVES' SALARIES

Nations are built through the vision of their founding fathers, but they are made great by sacrifices made by successive generations of patriotic leaders.

The vision of the Nigerian federation was conceived and laid bare at independence by our founding fathers, with parliamentary system of Government activated to build a great nation. Obviously, our start up was indeed great.

The Federal House of Representatives was home to patriots from across the country who came with nothing in mind but service to the fatherland and welfare of the people.

The challenge of the presidential system of government fostered on us by the military intervention of our political evolution has left us with pains. Its over bloated size due to bicameral houses is a grievous burden on our annual budgets, with so much voted for recurrent expenditure and little left for capital projects. All true patriots must see the need to make the needed sacrifice to cut down overheads and cost of governance which has become a colossal burden on the economic growth and infrastructure development.

May I therefore, on behalf of Nigerians, request your good offices to effect a 75% downward review of all Senators' and Representatives' salaries. I believe strongly that this request would be embraced by all the members of the National Assembly who have shown commitment to seeing the nation out of her economic doldrums.

This request is motivated by a survey carried out by Project Victory Call Initiative, AKA, PVC-NAIJA. The call for the review has become a common song on the lips of all Nigerians and it must be welcomed to avert another #endSARS in form of #endsenators' and representatives' salaries.

A stitch in time saves nine.

We hope that our distinguished senators and honourable Reps members would accept this in good faith and save Nigeria from the current economic malaise.

Yours in search of a better and greater Nigeria,

Apostle Dr. Bolaji O. Akinyemi,
President.

cc: Senate President

cc: Speaker of the house of representatives
